

**SOLAR DETACH & RESET**

ROC 331356

Dear Valued Solar Homeowner,

We are beyond honored you are taking the time to learn about how Solar Detach & Reset can serve you! Our unique Peace Protection Method is guaranteed to make re-roofing your home as peaceful as possible.

This Method was created to take the hassle out of coordinating your roof replacement between not only two different companies, but two different industries. As a NABCEP certified, licensed electrical company, and member of the Arizona Roofing Contractors Association we bridge the gap between the solar and roofing industry. With our Peace Protection Method, you can be certain that the Detach and Reset of your solar panels to allow for roof work will be EASY.

So here it is, our Peace Protection Method! Sit back, relax, and we will handle the rest! We have also included our additional services that help improve and protect your solar!

# SOLAR DETACH & RESET

## PHASE#1 ORGANIZE

We coordinate Detach & Reset dates directly with your roofer to minimize solar down time.

## PHASE#2 ANALYZE

We complete a full solar inspection and performance verification before removing the system.

## PHASE#3 DETACH

We safely detach all rooftop solar equipment so your roofer can strip and replace the old roof.

## PHASE#4 STORE

We store all reusable equipment onsite in a safe location of your choosing and out of the way.

## PHASE#5 RESET

We reset all rooftop solar equipment while respecting the newly installed roof.

## PHASE#6 OPTIMIZE

We clean the panels and complete a secondary performance verification.

## PHASE#7 GUARANTEE

We issue a new workmanship warranty and no leak guarantee.

# OFFER STACK

Access to A+ roofer referral list

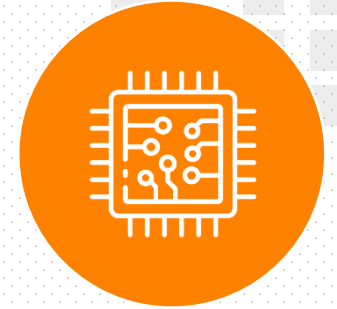

Assigned project coordination specialist

2 performance verifications

Detailed system inspection

Upgraded hardware that's outdated or not code compliant

Bottom flashings with every tile mount

Panel Cleaning

Discounted bird guard installation

No leak roof respect guarantee

System upgrade options

# GUARANTEE

We are so confident in our solar mount sealing process that we wanted to offer our Roof Respect Guarantee, in writing.

This Guarantee will match the workmanship warranty period of the roofing contractor up to 10 Years. If Solar Detach & Reset causes a roof leak within the warranty period at the point of a solar mount we installed, not only will we fix the leak and any water damage caused inside your home, but we will REFUND 100% of your Solar Detach & Reset costs.

# Solar Bird Proofing

## Why Bird Proof?

### HEALTH HAZARD

- Pigeon droppings carry a variety of parasites and diseases.
- Their debris create messes on your side yard, driveway, pool and roof.

### AVOID EXTRA COSTS

- Fees per nest removal
- Costs for roof repairs
- Costs for solar detach & reset

### ROOF DAMAGE

- Pigeon nests and debris will buildup and push water under the tiles of your roof.
- Pigeon droppings are acidic and break through the underlayment.

### MAINTAIN PRODUCTION

It is recommended to clean your solar panels twice a year to achieve its' highest production. Bird droppings are not considered during that recommendation.

## What is it?

Our team uses a galvanized steel wire with ½ in sq holes that's been dipped in black pvc coating to match the frame of the panels and will never rust.

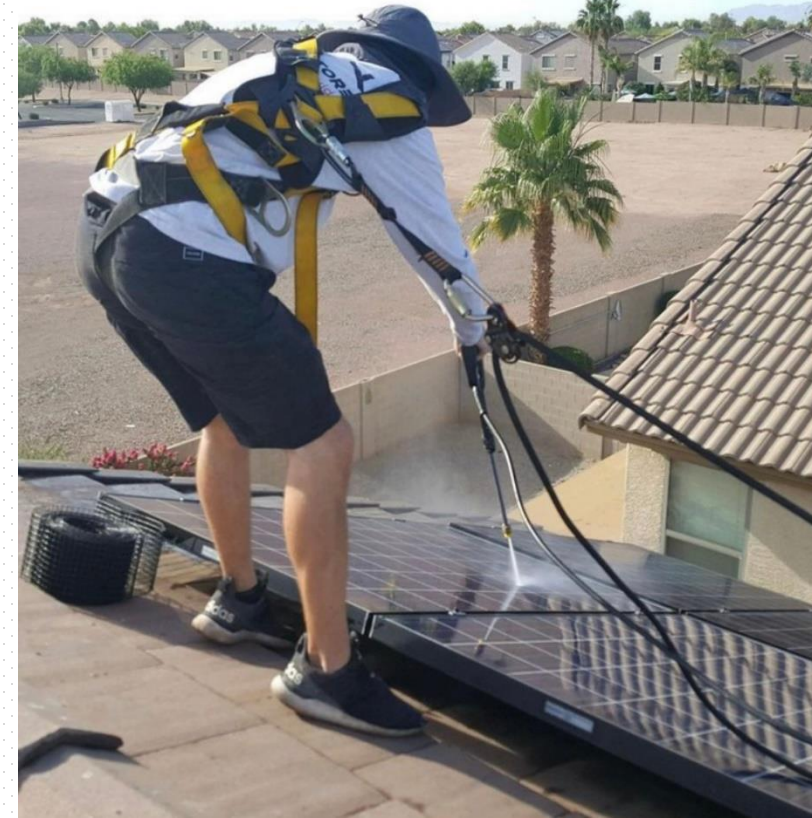

# Pigeon Debris Cleanout

# Solar Panel Cleaning

**First, our team power washes the solar panels to remove hard debris. Next, they use a biodegradable soap with a gentle scrub. Lastly, they finish the panel cleaning by completing a de-ionized spot free rinse to ensure no hard water is left on your panels.**

# Ridge Wire

## What is it?

Additional bird proofing measure that prevents birds from landing on their most desirable platform.

## Benefits

- Deters birds from landing on roof
- Prevents birds from using the peak as a walkway to other parts of the home.

# Alcove Bird Proofing

**In some cases, pigeons will stick around your home after solar bird guard is installed. They will try and stay close by and this may be your alcoves.**

## Bird Spikes

Bird spikes prevent birds from resting in areas that will create buildup and messes.

# Sense Solar Home Monitoring System

12

**Curious how your system is performing? Worried it will stop working and you won't notice until you get a large electric bill? All you have to do is download an app and you will be able to self monitor?**
